

The Röchling Group has been shaping industry. Worldwide. For more than 200 years. We transform the lives of people every day with our customized plastics: they reduce the weight of cars, make medication packaging more secure and improve industrial applications. Our workforce of 11,737 people is located in the places where our customers are – in 92 locations in 25 countries.

In the Industrial division, you will support customers with exceptional know-how in the plastics segment. Our plastics are used in almost every industry worldwide. And yet: Every industry has its own requirements for materials.

Röchling Industrial is seeking a motivated, self-starter to join our team as an Industrial Millwright in our Maintenance Department.

Industrial Millwright

Where we need you

Reporting to the Maintenance Manager, this role is responsible for, but not limited to the following:

- Troubleshoot, diagnose and resolve equipment failures as well as perform periodic inspections of equipment and systems
- Perform mechanical repair & maintenance activities throughout the plant on equipment and facilities
- Motors, hydraulics & pneumatic systems, bearings & gearboxes. Water heating and cooling systems
- Reading blueprints and schematics. Equipment installations & rigging
- Utilize Root Cause Analysis and Continuous Improvement to maximize equipment output and processes
- Execute preventative maintenance activities including troubleshooting and repairs to all production equipment, hydraulic systems and pumps in a timely manner
- Utilize the computerized maintenance management system for processing work orders, PM's and updating the equipment databases
- Support divisional and corporate objectives including health & safety, productivity, continuous improvement, innovation, quality, and waste
