

The Röchling Group has been shaping industry. Worldwide. For more than 200 years. We transform the lives of people every day with our customized plastics: they reduce the weight of cars, make medication packaging more secure and improve industrial applications. Our workforce of 11,737 people is located in the places where our customers are – in 92 locations in 25 countries.

Röchling Medical is a preferred supplier and development partner to leading pharmaceutical, biotech and medical technology companies worldwide. At six locations in Germany, USA and China, we develop and manufacture tailor-made pharmaceutical packaging and administration solutions, consumables for medical diagnostics as well as sophisticated components and assemblies for medical devices under clean room conditions.

The Rochester location is Röchling Medical's center of excellence for the production of surgical forceps for minimally invasive electrosurgical devices and also offers a broad portfolio of plastic injection molded parts and value-added assembly work for the medical industry. With its technical expertise, the team in Rochester is able to support customers as a contract manufacturer for the entire product lifecycle from concept to complete approved medical device.

**We are seeking a passionate Manufacturing and/or Process Engineer to join our team and drive Operational Excellence across our organization. The position will play a pivotal role in implementing and sustaining operational excellence initiatives. You will collaborate with cross-functional teams, analyze processes, and champion best practices. If you are a results-oriented professional with a keen eye for process optimization, we encourage you to apply and become part of our great team.**
