Röchling

Automotive

The Röchling Group has been shaping industry. Worldwide. For more than 200 years. We transform the lives of people every day with our customized plastics: they reduce the weight of cars, make medication packaging more secure and improve industrial applications. Our workforce of 11.681 people is located in the places where our customers are – in 83 locations in 25 countries.

In the Automotive division, you will shape the mobility of tomorrow. System solutions in the areas of Battery Solutions, Structural Lightweight, Aerodynamics and Propulsion. This means: We protect the environment while also improving the driving experience of millions of vehicles.

For our Laives (BZ) Engineering Center, we are looking for an:

Advanced Development Engineer (m/f/x)

Where we need you

As an **Advanced Development Engineer** you will play a central role within our R&D organization, supervising and coordinating research projects focused on the development of new products and manufacturing processes. The position is strongly oriented toward product/technology innovation and industrial implementation.

Main responsibilities:

- Manage Advanced Development projects, including planning, prioritization, progress monitoring, reporting, and financial follow-up, as well as documentation for publicly funded projects
- Plan new Advanced Development activities, including budget and timelines, and select and coordinate external research partners
- Contribute to the development of new products and product improvements, supporting applications in propulsion, electrification, and structural lightweight design
- Promote technical excellence by strengthening collaboration across teams and functions within the organization

How to convince us

- Degree in Engineering, Physics, or equivalent experience in a related technical field
- Knowledge of material technologies, especially polymers and composite materials
- Basic knowledge of project management methodologies
- Good English and either Italian or German
- Willingness to travel nationally and internationally

We are seeking a candidate with a keen interest in innovation, strong organizational and team-work abilities, effective communication and interpersonal skills, and the willingness to work in a fast-paced environment.

What we offer

- Individualized new-hire training plan, flexible working hours, overtime compensation, working time account, opportunity to work from home, free on-site parking, company canteen, supplementary pension plan, access to the Corporate Benefits web platform and discounts with local businesses
- Opportunity for professional and personal growth in a fast-paced environment with challenging objectives
- Consistent access to both internal and external training programs for personal and organizational development
- Certified as a Famiglia&Lavoro Audit-approved entity by the Autonomous Province of Bolzano
- The opportunity to work within a modern, technologically advanced production plant while experiencing the values
