

The Röchling Group has been shaping industry. Worldwide. For more than 200 years. We transform the lives of people every day with our customized plastics: they reduce the weight of cars, make medication packaging more secure and improve industrial applications. Our workforce of 11,737 people is located in the places where our customers are – in 92 locations in 25 countries.

In the Automotive division, you will shape the mobility of tomorrow. System solutions in the areas of Battery Solutions, Structural Lightweight, Aerodynamics and Propulsion. This means: We protect the environment while also improving the driving experience of millions of vehicles.

For our company in Laives (BZ) we are looking for a:

Specialist Infrastructure IT (m/f/x)

Where we need you

As a **Specialist Infrastructure IT** you will contribute to the success of our Infrastructure IT team in Europe by engaging in various activities, including infrastructure management, data backup and recovery, virtualization, identity and access management, IT asset management, configuration and deployment management, security and compliance, as well as networking.

Main responsibilities

- Oversee the day-to-day operations of our IT infrastructure, ensuring high availability, security, and performance.
- Manage data backup and recovery solutions to safeguard critical data and ensure efficient data backup and restoration processes. (Veeam)
- Administer and optimize virtualization environments, including server and storage management. (VMware vSphere)
- Maintain and configure systems for efficient data storage and protection. (PureStorage and DataDomain)
- Manage and troubleshoot user accounts, group policies, and domain services. (Microsoft Active Directory)
- Utilize IT asset management for tracking assets, software inventory, and network monitoring. (Lansweeper)
- Oversee configuration and deployment management for software, patches, and endpoint security. (Microsoft SCCM)
- Ensure that all systems are compliant with security standards and implement measures to enhance network

security.

- Manage switches, WiFi controllers and firewalls to optimize the network and protect the network from threats. (Aruba and PaloAlto)
- Work closely with other IT teams and departments to ensure seamless integration of infrastructure solutions

How to convince us

- IT Technical High School diploma or degree with 2-3 years of experience in managing IT infrastructure.
- Proficiency in Italian and English. Knowledge of German is considered a plus.
- Strong understanding of network and system administration, security, and best practices.
- Relevant certifications are a plus.

The ideal candidate possesses good problem-solving abilities, thrives in high-pressure environments, demonstrates robust communication and teamwork skills, and exhibits a keen aptitude for adapting to dynamic technologies and industry trends.

What we offer

- Individualized new-hire training plan, flexible working hours, overtime compensation, working time account, opportunity to work from home, free on-site parking, company canteen, supplementary pension plan, access to the Corporate Benefits web platform and discounts with local businesses
