

The Röchling Group has been shaping industry. Worldwide. For more than 200 years. We transform the lives of people every day with our customized plastics: they reduce the weight of cars, make medication packaging more secure and improve industrial applications. Our workforce of 11,737 people is located in the places where our customers are – in 92 locations in 25 countries.

You may not realize it, but the car that you are driving, likely has a part on it that was manufactured by Röchling Automotive. Here at Röchling, we produce the unseen plastic parts that help solve major challenges. We protect the environment while also improving the driving experience. Family values mean something to us. That's why we stand up for each other and are a reliable partner. We act responsibly and with a long-term perspective. We are seeking a skilled and detail-oriented Firewall Inspector to join our team.

Firewall Inspector

Where we need you

The Firewall Inspector will be responsible for the assembly, inspection, and maintenance of firewall components to ensure their quality and functionality. The ideal candidate will have a strong understanding of quality control processes, be capable of following established work procedures, and maintain a high level of cleanliness and organization in the work area.

- Conduct incoming inspections of components and fill in related records accurately.
- Perform outgoing inspections and generate reports for required projects, releasing outgoing reports as needed.
- Manage the containment area for components, ensuring proper storage and organization.
- Maintain measurement instruments used in the inspection and assembly processes.
- Assemble firewall components according to instructions, ensuring proper loading and unloading of equipment and machines.
- Perform basic checks on assembled components to verify quality and functionality.
- Follow established work processes and guidelines to carry out activities effectively and efficiently.
- Maintain order and cleanliness in the work area according to established 5S standards.
- Fill in production labels accurately and according to work instructions.

How to convince us

- High school diploma or equivalent.
- Previous experience in quality control or assembly work preferred.
- Familiarity with measurement instruments and quality inspection processes.
- Ability to follow detailed instructions and work processes accurately.
- Strong attention to detail and quality standards.
- Good organizational skills and ability to maintain cleanliness in the work area.
- Basic computer skills for data entry and record-keeping purposes.
- Strong communication skills and ability to work effectively in a team environment.
