

The Röchling Group has been shaping industry. Worldwide. For more than 200 years. We transform the lives of people every day with our customized plastics: they reduce the weight of cars, make medication packaging more secure and improve industrial applications. Our workforce of 11,737 people is located in the places where our customers are – in 92 locations in 25 countries.

Röchling Medical is a preferred supplier and development partner to leading pharmaceutical, biotech and medical technology companies worldwide. At six locations in Germany, USA and China, we develop and manufacture tailor-made pharmaceutical packaging and administration solutions, consumables for medical diagnostics as well as sophisticated components and assemblies for medical devices under clean room conditions.

The Rochester location is Röchling Medical's center of excellence for the production of surgical forceps for minimally invasive electrosurgical devices and also offers a broad portfolio of plastic injection molded parts and value-added assembly work for the medical industry. With its technical expertise, the team in Rochester is able to support customers as a contract manufacturer for the entire product lifecycle from concept to complete approved medical device.

Manages Inspectors and coordinates all activities related to Quality Inspection of medical devices and components. Areas of responsibility include Receiving Inspection, In process Inspection, Floor Inspection, Clean Room Inspection and Final Inspection across all shifts. Ensures customer inspection programs are executed and customer quality requirements are achieved. Reviews customer part drawings and inspection data to ensure uniformed program compliance. Maintains close working relationships with other department managers and supervisory personnel in order to meet and maintain product quality, identify, solve, and prevent problems affecting product quality, maximize productivity, and comply with regulatory requirements. Responsible for leading process improvements within the Inspection department.
